Pendant Perfection

Learn:

- Timber Selection
- Tool Techniques
- Knurling
- Chatter Work
- Spiralling
- Colouring

This week Theo shows us how to create the perfect pendant for that very special person.

Not only will we learn about timber selection, tool techniques, and texturing, Theo will also share with us how to apply colour and compatible finishes.

1.30am (PST)

UK/IRELAND

Wednesday 10th February

9.30am (GMT)

Meet Theo Haralampou

I initially took up woodturning 23 years ago so I could turn my own drumsticks and make gifts for my family and friends.

These days demonstrating and teaching woodturning is my greatest passion and full-time endeavour. Apart from demonstrating throughout Australia and New Zealand at symposiums, club events and wood shows, I have also demonstrated in the USA AAW Symposium, on the Woodturning Cruise through the fjords of Norway and for World Wood Day celebrations and tours in China, Cambodia and Laos.

I enjoy demonstrating the safest and easiest way to sharpen tools, develop good tool control, and take advantage of the characteristics of the wood to turn and embellish interesting, diverse and artful projects. I feel extremely privileged to be able to share my knowledge and experience with others.

My philosophy is that life is too short, so we should enjoy the journey, share with others and leave something to show we were here.

Interact live with internationally acclaimed woodturner Theo Haralampou who will be demonstrating from his studio workshop in Brisbane Australia.

Small Hats from the Magnificent Seven

Join us in welcoming Andrew Hall for his first Live Session of 2021.

Andrew will share with us how he makes his signature small hats, using only four tools from his 'magnificent seven'.

This demonstration Includes side grain turning techniques, and will show you how light can be used to gauge wall thickness with translucency.

In addition, we learn about the joy and flexibility of working with wet timber.

In this session, Andrew covers:

- Timber selection (moisture content and grain orientation)
- Tool requirements
- Preparation before turning
- Health and safety
- Turning principles
- Bending the finished hat to shape

Andrew Hall: Teacher, Demonstrator, Woodworker, Woodturner, Wood Hat Milliner and Bluesbowl Luthier

Born in 1961 I have had a passion for working with wood all of my life. My woodworking career started when I served a five year

apprenticeship as a Carpenter and Joiner with Blue Circle Industries at Weardale. At the age of 22 I had the opportunity to teach apprentices at three colleges in the North East of England. After teaching apprentices Carpentry and Joinery for 20 years I decided to rekindle my love of woodturning and have been teaching and demonstrating since 2002. Specialising in making wood hats, Corinthian helmets and lately musical instruments turned on the lathe called Bluesbowls. I also turn conventional bowls, natural edged vessels, platters boxes, and coloured sculptural work.

When time allows I love to turn one-off pieces of artistic woodturning and try and play my Bluesbowls.

I supply a small number of galleries with my work and manufacture bespoke woodturning made to the customer's requirements. I demonstrate at shows in the UK, Ireland and Europe.

I write articles for woodworking and woodturning related magazines.

Due to the challenges resulting from Covid 19 I have recently moved into the virtual world and deliver mixed medium Interactive Remote Demonstrations.
