LIVE WOODTURNING DEMONSTRATION

SPONSORED BY

RECORD POWER

ESTABLISHED 1909®

Bright Lights, Shadows & Spheres.

For our first Live Session of 2021, Theo will show you the easiest way to turn spheres of any size without using a special jig or tool.

The secret is the single LED light that Theo centres over the work, casting a shadow onto a backing board.

It is then simply a matter of turning away the shadows!

Are you Intrigued?...Please join us and learn how it's done.

Learn:

- How to set up the shadow board
- Steps to centre and align the light
- How to get the best cuts using scrapers, bowl and spindle gouges.
- Removing the shadow with practice cuts.
- How to stop your sphere cracking.

Meet Theo Haralampou

I initially took up woodturning 23 years ago so I could turn my own drumsticks and make gifts for my family and friends.

These days demonstrating and teaching woodturning is my greatest passion and full-time endeavour. Apart from demonstrating throughout Australia

and New Zealand at symposiums, club events and wood shows, I have also demonstrated in the USA AAW Symposium, on the Woodturning Cruise through the fjords of Norway and for World Wood Day celebrations and tours in China, Cambodia and Laos.

I enjoy demonstrating the safest and easiest way to sharpen tools, develop good tool control, and take advantage of the characteristics of the wood to turn and embellish interesting, diverse and artful projects. I feel extremely privileged to be able to share my knowledge and experience with others.

My philosophy is that life is too short, so we should enjoy the journey, share with others and leave something to show we were here.

Interact live with internationally acclaimed woodturner Theo Haralampou who will be demonstrating from his studio workshop in Brisbane Australia.
